Table 1a. Medical Billing Data Quality Summary
2006-2010

Year	TA	TE	TR (Errors)
2006	10,220	4,867	5,110
2007	3,674,139	1,811,870	1,055,816
2008	8,084,623	4,339,864	2,453,551
2009	9,903,797	4,683,554	2,295,865
2010*	14,924,579	2,442,692	16,603,998

The counts represent the number of TA, TE, TR reported back to the trading partner in the 824 acknowledgment from the WCIS.

TA and TE counts are the number of bills; TR counts are the number of errors.

*In 2010, error counts increased because WCIS began sending error acknowledgments for each bill in a duplicate batch (instead of sending one error acknowledgment for the duplicate batch) and also due to WCIS system errors.
